Scenarios

In collating feedback from working groups in scenarios, it can be useful to order feedback informed by the provisions of the Operational Guidance on IFE, some cross-cutting themes.

Suggestion: Collate feedback from groups by categorising, where possible under the following headings (e.g. use flipchart):

Area	Considerations
Policy	
Assessment & Monitoring	
Coordination	
Orientation/training	
Basic interventions	
Technical interventions	
Communication/media	
Emergency preparedness	
Evaluation/lessons learned
